

STRONG SCHOOLS! EQUAL EDUCATION!

HOW YOU CAN HELP MAKE CHILDREN STRONG THROUGH EDUCATION!

As we confirmed recently, all the schools we built with your support are, every day providing strong safe and secure learning environments for over 600 children in Tandrang. However the community parents and children still face real challenges every day. Many children in Tandrang have no school buildings, many are not attending classes and are now at real risk. Please help us reach these children before it is too late!

Please support one of the following actions to-day.

FEED A HUNGRY MIND

Many young children attend school on empty stomachs, are unable to concentrate and struggle to enjoy learning. A donation of **£100** provides a 5 year old with a nourishing hot meal every morning and afternoon snack for one year.

NURTURE FIRST STEPS

Early years education is not funded by the government, lacking teachers, community members work for free and without books or materials. A donation of **£300** provides a qualified kindergarten teacher to nurture the first steps of 50 children for a year.

TRAIN A TEACHER

Teachers in the community we support are very committed to providing quality education but lack the skills and support. A donation of **£500** provides a primary school teacher with the creative learning skills they need to inspire and motivate 100 children.

BUILD INSPIRING SPACES

Our Kindergartens are safe inspiring space with brightly painted walls, child friendly furniture, special dual language books and educational toys. A donation of **£1,000** provides bright and creative spaces to attract children to school.

SUPPORT CHILDREN ATTEND SCHOOL

Many children in the community we support never get the chance to attend school, or they are forced to drop out early. A donation of **£2,000** provides a class of students the uniforms and materials they need to attend primary school for a year.

BUILD STRONG SCHOOLS

Many of the children in Tandrang have no school buildings and attend lessons in a tin shed, out in the open or no longer attend at all. A donation of **£8,000** provides 50 children with a safe secure learning environment including furniture and learning materials.
